## Maxon Access Panels

Maxon work closely with each territory distributor to develop a range of access panels.

If required Maxon will design, develop and manufacture access panels specific to a territory to meet the local demand and required specifications.

Maxon has produced access panels in steel, plastic, stainless steel, aluminium and composite materials.

Access panels can be produced in any size or shape and are supplied with customers required branding, labeling and packaging.

- 🏠 UK based R&D
- 🏠 Ten year warranty on all products
- 🏠 Fire rating and insulation certified to British and European standards
- 🏠 Turn key service from design, development and to the door delivery

### Global Opportunities

Maxon are actively seeking global territory exclusive distributors for the current range of access panels, and, or access panels that will be developed specifically to meet the needs of each territory. Maxon supply a turn key service, from design to the door delivery. Samples and data sheets are readily available.
